

It's that time of school again when units wrap up, things are reviewed, and end of year activities happen! Here is a list of things you need to know as we come to the close of second grade!

Monday, May 28 - No school in honor of Memorial Day

Tuesday, May 29, 1:30 pm - Vermicomposting bin sorting - We will be sorting our worm bin contents and planting seeds with the castings. We will then rebuild the bin for the worms to continue to compost. We will need 5-8 lbs of newspaper, a bag of plain garden soil, and sieves, colanders, strainers, or screens (you will get these back). Anyone that wants to help is welcome!

Wednesday, May 30, 1:30 - Wetlands Walk with Mrs. Gaughenbaugh - I will be joining the students on this walk as well as Mrs. Jenkins and her class. We will need to wear old play clothes and have our rubber boots. Please send an extra pair of socks with your child.

Thursday, May 31, 1:15 pm - Birthday Giving Party - See the information that has already come home.

Thursday, May 31, 2:15-2:35 - KidzTempo music program - See the information that has already come home.

Friday, June 1 - Math Books Due - Please return the Investigations math reference book you have at home.

Tuesday, June 5, 1:30 - Wetlands walk - We will be visiting the wetlands again. Please make sure your child wears old play clothes to school. We will need rubber boots and a change of socks.

Thursday, June 7, all day - Fun/Field Day - Please see the information that has already come home. Please be sure your child has on tennis shoes and brings a shirt change and sock change. There will be lots of playing so we want your child to be dressed appropriately. They will also be getting wet that day. When your child leaves for the day, be sure s/he does not leave anything at school. Thanks!

Friday, June 8 - No School - This is the teacher's last day, so if your child forgot anything, we will still be in the building.

Thank you for a fabulous year! I honestly don't know when I have had a better one. You have been such wonderful parents and your children are amazing! I hope to see you next year as your child enjoys learning the STEM way again!

*Mrs. Marianne Patterson*
